

MULTITENANCY MADE EASY

WITH STATELESS AKROS

AS A CLOUD
PROVIDER

is at the center of
your business.

MULTITENANCY REQUIRES

RELIABILITY

SECURITY

PERFORMANCE

MULTITENANCY WITH AKROS

GUARANTEED PERFORMANCE

Akros controls resource consumption of each tenant to guarantee Quality of Service (QoS) throughout a tenants network.

TENANT ELASTICITY

As tenant traffic increases or decreases, workloads are automatically re-distributed across servers without operator intervention.

NATIVE HIGH AVAILABILITY

In the case of hardware failures or network hiccups, workloads are redistributed without intervention or 2N configurations.

SO YOUR BUSINESS

INCREASES
TENANT LOYALTY

DECREASES
OVERHEAD

GROWS
REVENUE

The next chapter in
cloud computing is
being written now.
