

# CAPTURE THE CLOUD

WITH STATELESS AKROS

## CLOUDS ARE SHIFTING

SOURCE: Structure Research

Service providers can be the **key link** between workloads, if they can deliver innovative, value-add services

## WITH AKROS YOU CAN

### QUICKLY DEPLOY CUSTOM SERVICES

Build customized network services to meet an enterprise's exact business requirements in minutes.

### DIFFERENTIATE WITH INNOVATIVE PRICING

Charge tenants for exactly what they use through active monitoring and backoffice integrations.

### REDUCE RISK WITH SCALE OUT

Resources are delivered in a linear fashion and x86 servers can be introduced node by node.

## SO YOUR BUSINESS

INCREASES  
TENANT LOYALTY

DECREASES  
OVERHEAD

GROWS  
REVENUE

The next chapter in cloud computing is **being written now.**
