

COMMAND YOUR ENVIRONMENT

WITH STATELESS AKROS

66%

of IT professionals feel that growing IT complexity is making their jobs more difficult.

SOURCE: IPSwitch

[APIs]

streamline your network

& simplify management

```
{
  "Fine Grain Control with Akros APIs": [
    {
      "name": "complete control",
      "description": "API calls automate every aspect of your network including configuration, QoS, resource management, reporting and billing. Any tasks you can perform in the Web UI can be completed via API call."
    },
    {
      "name": "tenant dashboard",
      "description": "The rich data from the Akros API is passed on to tenant users who are given view into their network through a portal. Tenants have just the right amount of control to modify their own network."
    },
    {
      "name": "simplified integrations",
      "description": "The API will also enable integrations with existing systems that you use to manage your infrastructure in its entirety. In the future, Akros will seamlessly integrate with a simple plug-in."
    }
  ]
}
```

SO YOU
CAN

INCREASE TENANT
SATISFACTION

SIMPLIFY
MANAGEMENT

THINK
STRATEGICALLY

The next chapter in cloud computing is **being written now.**
